

28TH - 10-92

Dear Women's Aid,

I have heard through the grapevine that Clydebank District Council, are ^{PS} thinking of withdrawing funding to Women's Aid. I feel this would be devastating as ~~they~~ ^{you} do a marvellous job helping women and children to regain confidence in themselves again after a traumatic experience. Where else could these women and children go in a hurry.

I hope the council will rethink what they are doing and open there eyes to the fact that we need more refuges instead of trying to close the only safe place for women and children to go.

I support Womens aid fully and hope that women will stand together on this matter.

P.S I have written to my councillor to complain about withdrawing the funds.

Yours Sincerely
